SSCPS Parents' Association 2005 – 2006: End of the Year Report

SSCPS Parents, Faculty, and Trustees,

It's been a wonderfully active year for the SSCPS Parents' Association (PA) and parent volunteers. With passion and energy, parents have done so much to support the school. But most importantly, we have strived to create a community where parents and guardians can share ideas, work towards common goals, and have fun with each other, all while advocating for our children.

Please see the list below for a sampling of things that the PA has accomplished this school year. It's an impressive list, but is a just sampling of the things we've done. Many more hours have been logged by parents who spend time in the classrooms, directly supporting the work of the teachers.

Though the PA has progressed in organization and has accomplished a lot, we have room for improvement. The PA suffers slightly from an identity crisis, unsure of whether we're a fundraising organization, a forum for parent concerns, a place to find out what's going on at the school, a collection of willing volunteers, or all of the above. We've started working on clarifying the role of the PA in the school with some great conversations at the April & May PA meetings, and with a survey included on the April PA election ballot.

The PA would like to reach out more to all of the parents as a way to encourage them to become more involved in the school. The PA would also like to enrich communication with the school faculty, to let them know we're here to help them when needed.

The PA is looking forward to a great 2006-2007 school year. The parents who have volunteered so much of their time this past year are already focused on events for next year, planning and coordinating people and dates. To those of you who are parents, please stay involved in the school. To our SSCPS faculty and trustees, please know that the parents are committed to keeping this school a rich environment; and are here for you and the students. Enjoy your summer.

David Whitemyer
PA Chair
